BS IT   continued   Virtual university Hafizabad campus

Summary

As a Flutter developer with 2 years of experience, I've developed a wide range of apps, utilizing advanced state management techniques like GetX and Riverpod. My expertise includes integrating third-party libraries, Firebase services, REST APIs, and local databases like Hive and SQLite. I focus on building high-performance, scalable apps with responsive UIs, and I have experience in app deployment to both the Google Play Store and Apple App Store. Continuously improving my skills, I stay updated with the latest Flutter tools and best practices.

Experience

Flutter Developer   Joining April 2024
Digixvalley software House, Lahore

I am currently working at DigixValley, where I have contributed to several large-scale applications. This role has provided me with invaluable learning opportunities, allowing me to further develop my skills. At DigixValley, I work collaboratively in a team environment, contributing to the successful delivery of complex projects while continuing to grow both technically and professionally.

I am approaching one year at DigixValley, where I have worked on numerous large-scale applications. This role has been instrumental in enhancing my skills, offering continuous learning opportunities. I collaborate closely with a team of professionals, contributing to the successful development and delivery of complex projects, and further advancing my expertise in software development

Junior Flutter Developer   Augest 2023 February 2024
Funzoft software House, Lahore

During my tenure at Funzoft Software House in Lahore, I gained extensive experience as a Flutter developer, learning and contributing significantly to various projects. Engaging in teamwork enriched my skills further, enabling successful collaboration on multiple projects. My time at Funzoft was highly rewarding, providing invaluable experience and fostering professional growth.

Junior Flutter Developer   February 2023 July 2023
Orion Techz Software House,   Hafizabad

I began my career at Oriontechz Software House, where I completed an internship, gaining valuable hands-on experience and foundational knowledge in software development. Following the internship, I joined the team as a Junior Developer, where I further honed my skills and contributed to a variety of projects, learning and growing significantly in the process.
