PROFILE

Skilled Flutter Developer with 3 years of experience in designing and developing cross-platform mobile applications. Expertise in Dart, Flutter, GetX, Riverpod, and REST API integration. Experienced in scalable architecture, responsive UI development, third-party service integration, and performance optimisation. Committed to delivering reliable applications and enhancing technical proficiency in mobile development.

WORK EXPERIENCE

Digixvalley Software House | Flutter Developer

April 2024 – Present · Lahore, Pakistan

Contributed to the development of multiple large-scale applications using Flutter, along with experience in native mobile app development. Worked on various projects, focusing on building high-quality, scalable, and user-friendly applications. Collaborating with experienced developers and cross-functional teams has strengthened my technical expertise, problem-solving abilities, and understanding of the software development lifecycle. Continuously expanded my skill set while delivering reliable, efficient, and high-performance mobile applications.

Funzsoft Software House | Junior Flutter Developer

August 2023 – February 2024 · Lahore

Developed multiple mobile applications as a Flutter Developer. Collaborated with team members to implement features and integrate APIs, enhancing responsiveness and user experience. Strengthened Flutter development skills and problem-solving abilities through clean code practices and collaborative software development, with valuable opportunities for continuous learning and professional growth.

Orion Techz Software House | Junior Flutter Developer

February 2023 – July 2023 · Hafizabad

Completed an internship at Orion Techz Software House, gaining hands-on experience and foundational knowledge in software development, then joined the team as a Junior Developer, contributing to various projects and enhancing technical capabilities and team collaboration. Worked closely with other team members to identify and remove software bugs.
